

# Identity Dashboard

**Gain insight into the health and effectiveness of your identity infrastructure.**

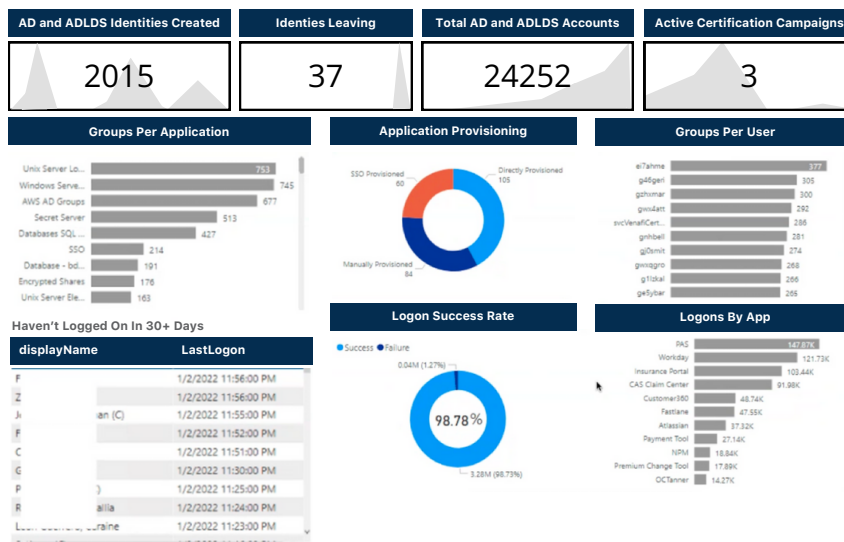

Unlock the full potential of your identity management program with our **customizable Identity KPI dashboards**. By tracking essential metrics such as password reset frequency, privileged account management, and user provisioning times, **this dashboard will provide actionable insights to enhance security, streamline operations, and track improvements over time**. Our intuitive dashboards enable real-time monitoring and decision-making, helping you identify risks, improve access controls, and optimize resource use.

## Key Performance Metrics

- ✓ Password Reset Requests
