

# Identity & Access Management Advisory Services

## Best Advice. Strongest Assessments.

With twenty years of identity and cybersecurity experience, we have grown to become trusted advisors in some of the largest, most highly regulated corporations across many industries. Through strategic partnerships with security software leaders and our ground-level perspective, **we keep closely in-step with emerging solutions and trends in the identity and security landscapes.**

With comprehensive advisory services covering everything from high-level strategy to tackling day to day tasks, we have the experience and ingenuity to bring your identity posture up to date.

### Interim CISO Services

Our CISO services provide a **full-time temporary CISO** with years of career experience to take point in your organization.

Your interim CISO can **help build a new identity/security program, extend and implement your roadmap, or provide guidance and service** during changes in the organization.

### Risk Assessments & Identity Planning

Our exhaustive, comprehensive risk assessments **reveal vulnerabilities in your identity posture.** We will work with you to design and implement a strategic roadmap for improving your risk posture.

We can also work with you to design and implement a strategic roadmap for improving your posture in both the near term and over a three-year period.
